 We've changed the requirements for Sponsored Brands product collection ads

All new and edited product collection ads now require a custom image. Ads without a custom image won't deliver and won't receive impressions after August 30, 2024. On average, Sponsored Brands ads with branded creative, such as a custom image, generate a 50% increase in CTR and 60% increase in branded search than ads with only product images (Amazon internal data, 2022). [View ads that need an image](#) | [Learn about new requirement](#)

For Context

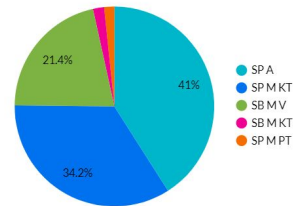

- This is a start-up brand offering a seasonal product — a Gold Dipped Rose.
- From March to May, there was a noticeable uptrend in ROAS and ad sales.
- In June, performance dipped due to a billing issue (ads were paused for 20 days while the client's credit card was being updated).
- By late June, ads resumed, and the brand quickly regained momentum with KPIs trending upward.
- Key ad strategies applied to this brand include:

Brand Defense – cross-selling products with slow sales velocity to the top selling product to increase visibility and conversions, also increase AOV.

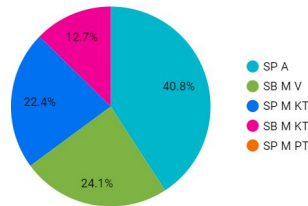

Branded Keyword Strategy – aggressive bidding on branded terms and featuring them in Sponsored Brands campaigns (Product Collection) for Brand growth and Brand Defense.

Anyone else have an AMAZING Prime Day yesterday? Medical Guardian doubled their sales from July 11th, and their total revenue for these 2 days more than exceeded our total revenue from last week by 148%

HUGE shout out to @Nikki Mae Sunio for their advertising efforts here!!!! When I spoke with Medical Guardian yesterday, they said the 11th was their best sales day ever, but we increased that revenue by 111% on the 12th 🐾💕

I am absolutely thrilled with the results we've achieved so far! I know you're all exhausted, but we still have our lead-out week happening right now. Let's stay vigilant and continue our amazing work! I am incredibly proud of what we've accomplished together. Let's keep the momentum going and finish strong.

@Nikki thank you for all of your advertising support! Definitely could not have achieved this success without you.

@channel The meeting went really well! They are now considering a collaboration and they were very happy with the results of the audit. Quick shoutout to @nikki.sunio she did an amazing job with the analysis, went really deep into every topic, and identified some very strong findings. Great work! 🙌

We'll discuss their decision with [redacted] and [redacted] on Friday and keep you posted
